

Letter From the Editor

Thank you for celebrating our first quarter with us! It's been a great month. The massive outpouring of support for Inside Hookah has continued to grow stronger. We succeeded in attracting thousands of more brand new readers to our site! I am personally ecstatic to see IH continue in its rapid growth! If you haven't joined our membership list, please make sure to do so, I love to send you guys free stuff! As always, please submit any feedback, both positive and negative, to editor@insidehookah.com.

We are still looking for volunteer writers and promoters. Inside Hookah is a growing publication, and now is a great opportunity to be apart of our success! If you are interested in joining the Inside Hookah team as a volunteer, please submit your request to editor@insidehookah.com. Our writers will share useful and interesting information on exciting topics with thousands of people from all over the world every month. Our promoters have access to Inside Hookah sponsored events and discounts when they volunteer as Inside Hookah staff at our functions!

This month's edition is centered around the huge, long standing celebration of the Iranian New Year, named Norouz. We've provided you with back ground on the culture/religion under the History section of "The Truth," we share the Inside information on the celebration itself under the Culture to Culture section of "The Truth," and share traditional recipes for the celebration under "Flavor of the Month." I hope you guys enjoy this month's edition as much as you've enjoyed the previous!

I would like to extend a sincere thank you to: Al Fakher, Havana, Hookah Kings, and Social Smoke for their support in Tobacco Wars. In addition, I'd like to personally thank YOU! Inside Hookah is only getting better, but would be nothing if you didn't come to visit us EVERY month!

Stay Smokin,
Liz P.
Editor of Inside Hookah
